

Covid19 Safe Plan

With the lifting of travel restrictions and the reopening of tourism in FNQ, businesses must develop a "COVID19 Safe Plan". Our plan has been put together with the safety of our customers and drivers in the forefront. This policy will be revised monthly.

1. Maximum seats in vehicles have been reduced to 6 persons from maximum 7 persons. We no longer use the front seat for passengers. As we do private transfers (sole use) social distancing does not apply.
2. All our drivers have completed the "**COVID-19 Hygiene Awareness for Drivers** Training Course."
3. All Vehicles are **stocked with hand sanitizer** inside the passenger area, and passengers are asked to please use sanitiser when entering/exiting the vehicle.
4. The **high touch zones are cleaned with disinfectant** between each job.
5. Drivers wash their hands often with soap and water, use hand sanitizer frequently between hand washes and after opening and closing doors, exchanging payment and other contact.
6. All vehicles are **deep cleaned** at the end of each shift.
7. **Contact tracing**. As a natural occurring consequence of any booking we maintain a manifest of people's names, contact email and phone number. If these are requested by **Queensland Government Health Agencies Only** as part of contact tracing, **we will provide details for that purpose only.**

ADVICE TO PASSENGERS:

1. Avoid direct contact with the driver and other passengers.
2. Practice good cough/sneeze hygiene, and hand hygiene.
3. Cover your cough and sneeze, dispose of tissues.
4. Wash your hands frequently with soap and water or an approved hand sanitiser

*The use of face masks by drivers or passenger **remain optional in Queensland**. Travellers are encouraged to continue the same precautions they felt comfortable with when flying into Cairns.
